Career Objective

Motivated and detail-oriented B.Tech Computer Science student with hands-on experience in Python development, FastAPI, OpenCV, Machine Learning, SQL, and Power BI. Passionate about building real-world software projects and continuously improving technical skills. Seeking an opportunity to contribute to a growth-oriented organization while enhancing practical knowledge in software development and data-driven technologies.

Education

ITS Engineering College

Bachelor of Technology (B.Tech) – Computer Science Engineering
Current Year: 4th Year | CGPA: 6.8

Technical Skills

- Python
- SQL
- FastAPI
- OpenCV
- Power BI
- Machine Learning
- API Development
- Data Analysis
- Problem Solving

Projects

Banking System

Developed a banking management system using Python and SQL for account creation, balance checking, money transfer, and transaction management.

Face Attendance System

Built a face recognition-based attendance system using Python and OpenCV for real-time attendance marking through webcam scanning.

Movie Recommendation System

Created a Machine Learning-based movie recommendation system that suggests movies based on user preferences and similarity algorithms.

Job Tracking System

Developed a job tracking application to manage and track job applications, interview status, and placement activities efficiently.

Data Fetch Project

Built a FastAPI-based project to fetch and process live data using APIs and web scraping techniques.

Strengths

- Quick Learner
- Team Collaboration
- Problem Solving
- Adaptability
- Self-Motivated

Declaration

I hereby declare that the above information is true to the best of my knowledge and belief.
